ANTI-VIBRATION PADS

Anti-vibration rubber mats are essential components in various industries and applications, providing effective solutions for noise and vibration control. These versatile mats are engineered to absorb and dissipate energy, protecting equipment, reducing noise pollution, and enhancing overall performance.

MLD AVIBE10x300x300
300mm x 300mm x 10mm

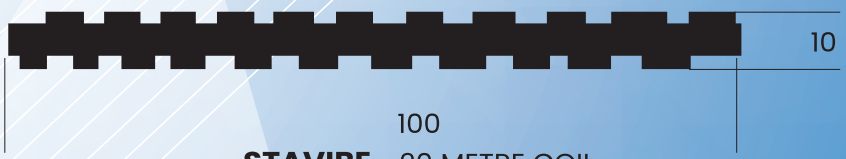

MLD AVIBE10X100
100mm x 10mm x 1 metre

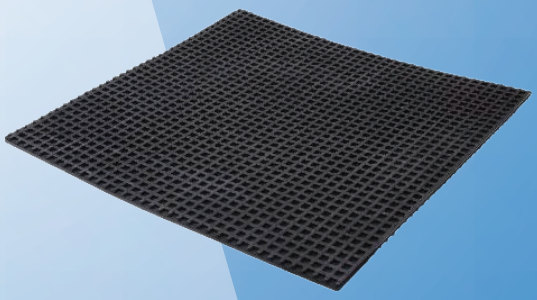

MLD AVIBE10X300
300mm x 1000mm x 10mm

Their reversible, anti-slip surface minimises noise, vibration, and movement while providing secure footing on uneven ground.

STAVIBE – 20 METRE COIL
STAVIBE 1000 – 1 METRE STRIP

MLD WFPAD
457mm x 457mm x 8mm
Box of 10
