EUROTEX STRIPS

EUROTEX RUBBER STRIPS

Eurotex rubber strips are engineered for durable performance in demanding industrial environments, particularly within material handling and conveyor systems. Manufactured from high-quality rubber compounds, they offer excellent resistance to wear, impact and abrasion, helping extend equipment life and reduce maintenance downtime.

Commonly used as skirting, sealing and wear strips, Eurotex rubber strips provide reliable sealing performance and consistent fit in high-use applications. Suitable for industrial replacement and new installations where durability and performance are critical.
