SHEET RUBBER - POOL MATTING

Ambassador's pool matting is design to have strong grip underfoot when both wet and dry, at the same time providing excellent barefoot comfort. Engineered to have effective large scale 4-way water drainage makes it a hygienic solution for hazardous wet areas such as around swimming pools, jacuzzies, saunas, showers and changing rooms. Our pool matting is designed to provided stable underfoot even when laid loose and are easily cut to size.
