# RAMPS

Our solid rubber ramps are manufactured from high-quality EPDM rubber, providing a durable and reliable solution for safe access over kerbs, steps, cables and uneven surfaces. Designed for industrial and commercial use, they perform exceptionally well in high-traffic and outdoor environments.

## Features

UV, weather and ozone resistant EPDM
High load-bearing capacity
Slip-resistant surface for added safety
Flexible to suit uneven surfaces
Easy to install and reusable

## Applications

Warehouses, construction sites, loading docks, driveways, cable protection and pedestrian access.
